

The Norton Executive Benefit Program

Support your leadership team with the comprehensive digital protection they deserve – from the industry leader they recognize.

Senior executives aren't just important to your company, they can also mean a lot to cybercriminals. They tend to be more lucrative targets, as they often have access to confidential information and company systems that can make them weak links and key targets.

Our executive plan focuses on what matters most:

IT'S SIMPLE.

Our concierge on-boarding service provides a personalized one-on-one welcome experience with the opportunity to engage quickly and easily. Our intuitive dashboard can be accessed online and through our mobile app.

IT'S SMART.

Accessing multiple data sources, Norton LifeLock is constantly looking for cues that may indicate potential fraud. Interactive alerts allow executives to quickly indicate if the alert was not triggered by their own actions – at the touch of a button. Executives can also proactively place a lock on their credit report and help prevent high risk loan applications.

IT'S SECURE.

Help protect your executives, their families, and your company from vulnerabilities caused by personal data exposure. Keep personal information private by browsing online more securely, safeguarding personal devices (including mobile devices) from malware, spyware and ransomware, and removing personal information from data broker sites.

Executives don't have time to spend recovering from an identity theft event alone.

Rest assured - we'll do the heavy lifting! Restoring an identity isn't always easy - but with more than a decade in the industry, Norton LifeLock's U.S.-based Identity Restoration Specialists know the steps to take and the calls to make, jumping into action to work to restore your executives' identity.

We also help protect with our Million Dollar Protection™ Package^{†††}:
